Jay Ganesh Thakare

Aspiring Fullstack Developer | Passionate about UI/UX & Web Technologies

thakarejay2005@gmail.com +91 8446574981 Jay-Thakare05 JayThakare05

Career Objective

Passionate about strengthening problem-solving skills through Data Structures & Algorithms (DSA) and Full-Stack Web Development. Experienced in building real-world web applications and developing Machine Learning models, with a strong interest in integrating ML and AI solutions into end-to-end full-stack systems. A fast, adaptable learner driven by continuous growth and eager to contribute technical expertise in a dynamic Web Development or AI-driven role

Education

A. P. Shah Institute of Technology Bachelor of Engineering in Computer Science and Engineering (AI & ML)
Mumbai University — *2023 – Present (Expected Graduation: 2027)*

Smt. CHM College,Ulhasnagar HSC (12th), Science Stream Maharashtra Board — *Passed in 2023*

S.I.C.E.S English High School
SSC (10th)
Maharashtra Board — *Passed in 2021*

Experience

Fresher

Actively learning Deep Learning and Agentic AI to enhance problem-solving skills and build intelligent systems

Projects

Airbnb-Clone (**Click here**) — *Project*

- Developed a full-stack **Airbnb clone** that enables users to register, log in, create property listings, and browse rental stays.
- Built using **Node.js, Express, MongoDB, EJS, and Bootstrap** with secure authentication and a responsive user interface.

AutoCareerAI — *Project*

- Designed and implemented **AutoCareer AI**, a full-stack web application that performs AI-driven **resume analysis**, skill gap detection, and role-based recommendations.
- Integrated FastAPI backend, Ollama (LLaMA-3), and React frontend to deliver structured, ATS-optimized feedback.

QuizGenerator — *Project*

- Developed a full-stack **AI Quiz Generator** that converts academic PDFs into concept-driven MCQs with explanations, using **LLaMA-3 (Ollama), RAG, ChromaDB, React, and Node.js.**
- Enabled custom page selection, difficulty control, and exam-style evaluation, ensuring scalable and accurate quiz generation.

Certifications

- Programming Essentials in C – Cisco Networking Academy.
- Java Fundamentals – Oracle Academy.
- Full Stack Web Development – Apna College
- Supervised Machine Learning: Regression and Classification - DeepLearning.AI and Stanford University(Coursera)

Technologies

- **Languages:** Python, C, C++,Java,MySql,MERN Stack
- **Tools:** Git, GitHub, Google Colab,Vs code
- **Operating Systems:** Windows, Linux (Ubuntu)
